ONEAC ON Series® UPS (Power Conditioned Line-Interactive)

ONEAC's power conditioned UPS products feature an isolation transformer-based design, providing full-time protection by removing all harmful power line disturbances. Other manageability enhancement features include: hot-swap battery packs to eliminate battery maintenance downtime and reduce cost. All ON Series e and ON Series m UPS products carry a 5-year warranty on power and control systems and a 2-year warranty on the battery sub-system. Extended warranty programs are available.

ONEAC ON Series UPS (Power Conditioned, Line-Interactive) (continued)

ONEAC's power conditioned UPS products feature an isolation transformer-based design, providing full-time protection by removing all harmful power line disturbances. The ON Series 3300 VA - 5000 VA UPS incorporates unique service and maintenance features as standard. A number of optional features are also available. All ON Series UPS products carry a 5-year warranty on power and control systems and a 2-year warranty on the battery sub-system. Extended warranty programs are available.

ON Series Full Communications (for Nortel PBX Apps) (60 Hz, 208/220-240 V input, 120/208 V or 120/220-240 V output) this product will be discontinued October 2007.

The following systems are UL approved and include a power head, battery cabinet on a wheeled base (batteries can be added for increased runtime), a full maintenance bypass for hot-swap of power and control modules^, a remote power-off interface, an 8' Nortel Meridian interface cable and ground bar.
