

# Fresh-Air slim-line

## AF400

**Fresh-Air Purifier Designed Specifically  
For You To Breathe Healthier Air in the Lab!**

### Benefits of a Clean Dental Lab:

- Create a healthier Environment
- Reduce re-work in Porcelain Dept.
- Decrease airborne plaster in Model Room
- Reduce airborne aluminous oxide, MONOMER and other harmful contaminants in Crown & Bridge

### Benefits of a Proven Design:

- Tri-Level Filtration ensures longer and more efficient filter life:
  - **Level I** captures large dust particles
  - **Level II** captures finer particles
  - **Level III** sub-micron filtration (filters down to 0.3 microns)
- Dust and Viruses can be captured with proven HEPA filter technology
- Extremely quiet - only 54dbA, Plugs into any 120-volt outlet

### **Two Models available:**

- AF400-D For airborne dust, up to 200 sq.ft.
- AF400-DM: For airborne dust & odors, up to 200 sq.

### **Engineering Data, Model: AF400**

Dimensions: 26.25"h x 12.75"w x 15.75"d, 65lbs (75lbs shipping)  
667mm h x 324mm w x 400mm d, 30kgs (34kgs shipping)

Electrical Requirements: 120 volts, 1amp; 230 volts, 0.6amps  
CSA Approved for Canada/USA Tested to UL Requirements CE Mark
